INTERNATIONAL
CONGRESS
OF ANIMAL
REPRODUCTION

JUNE 26-30TH
2016
LE VINCI IN TOURS
FRANCE

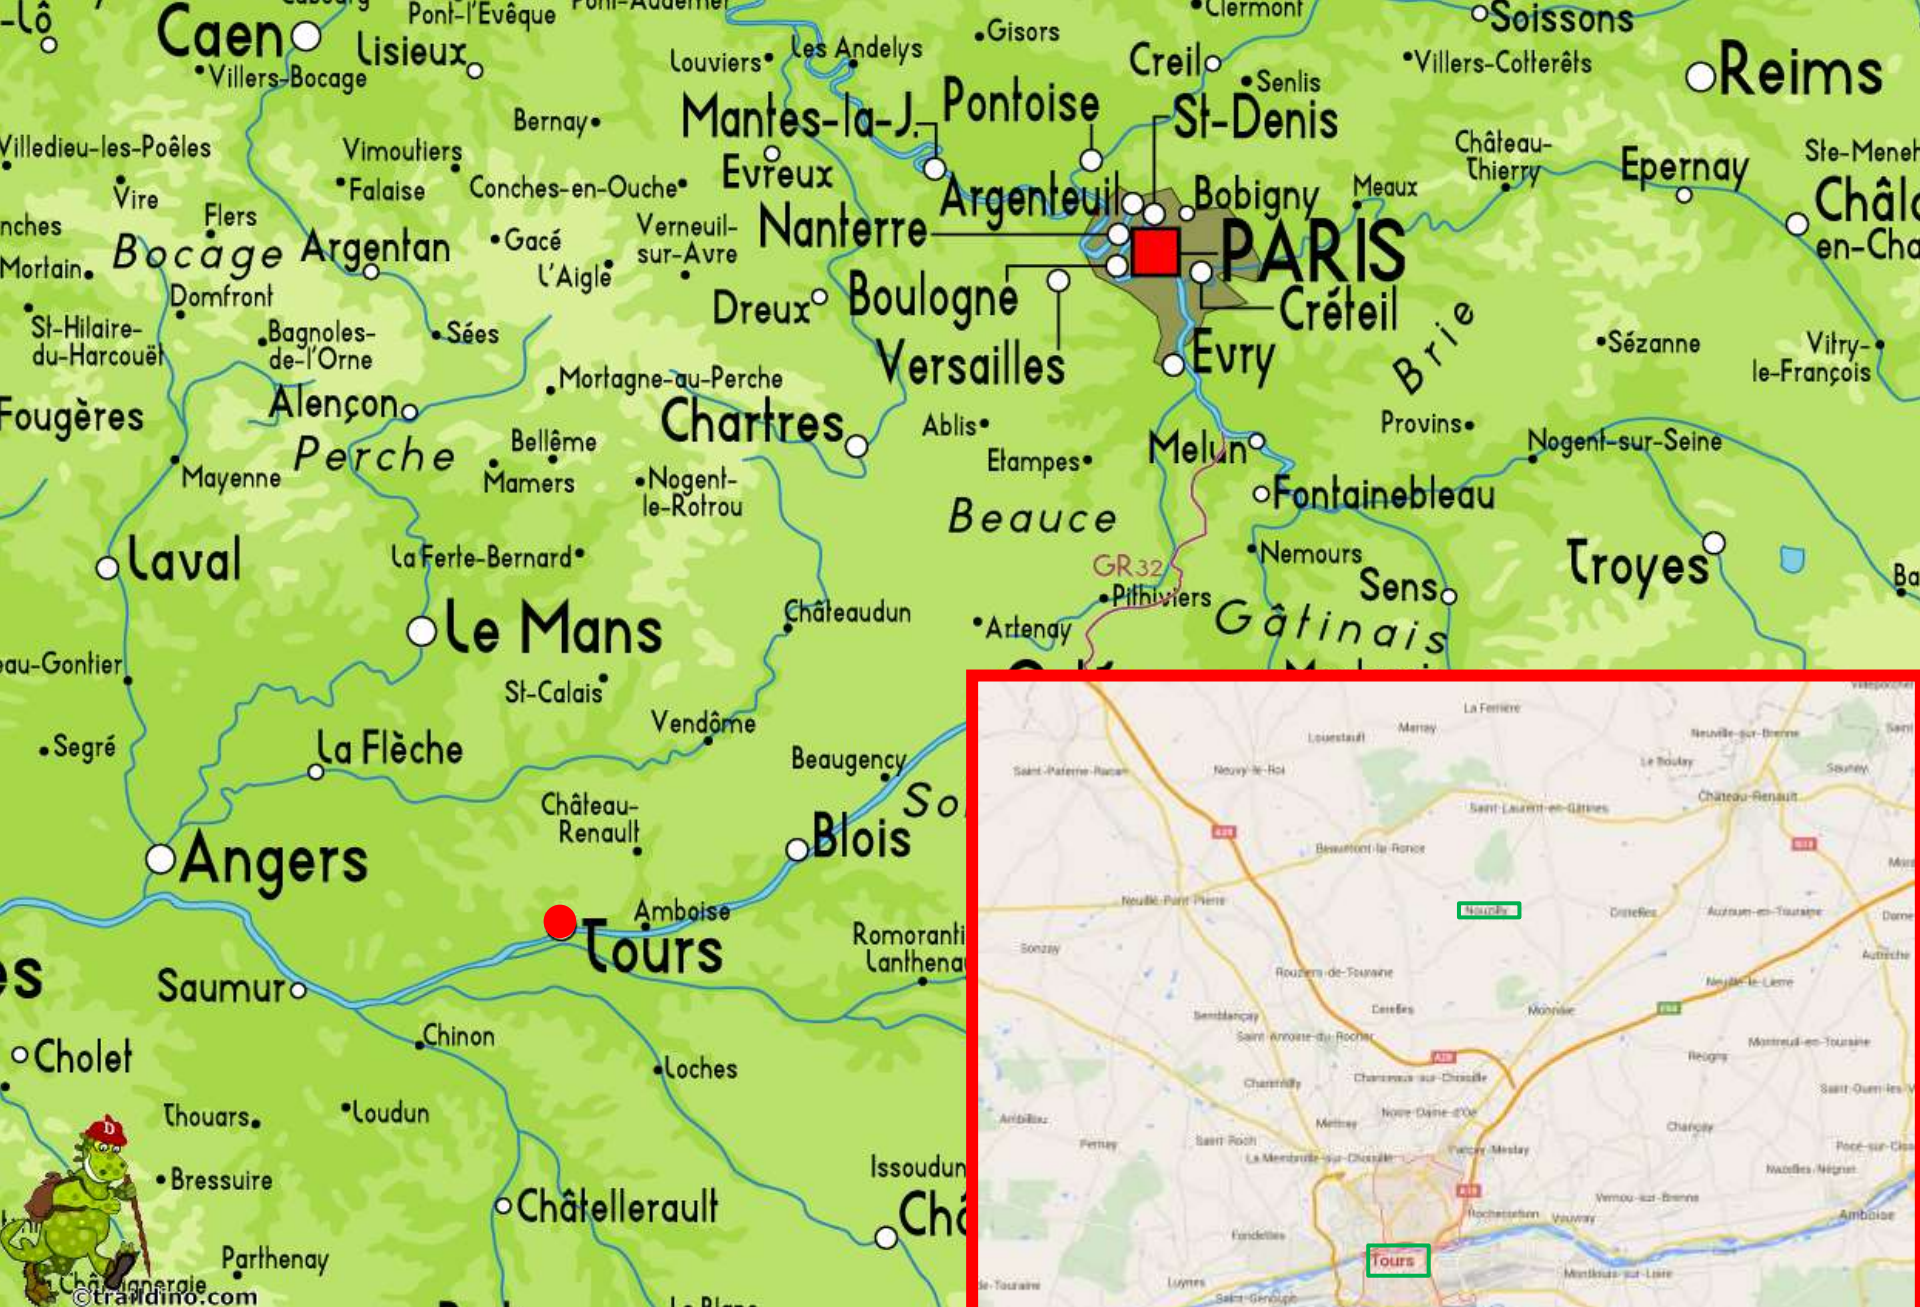

ICAR 2016

18th International Congress of Animal Reproduction ICAR

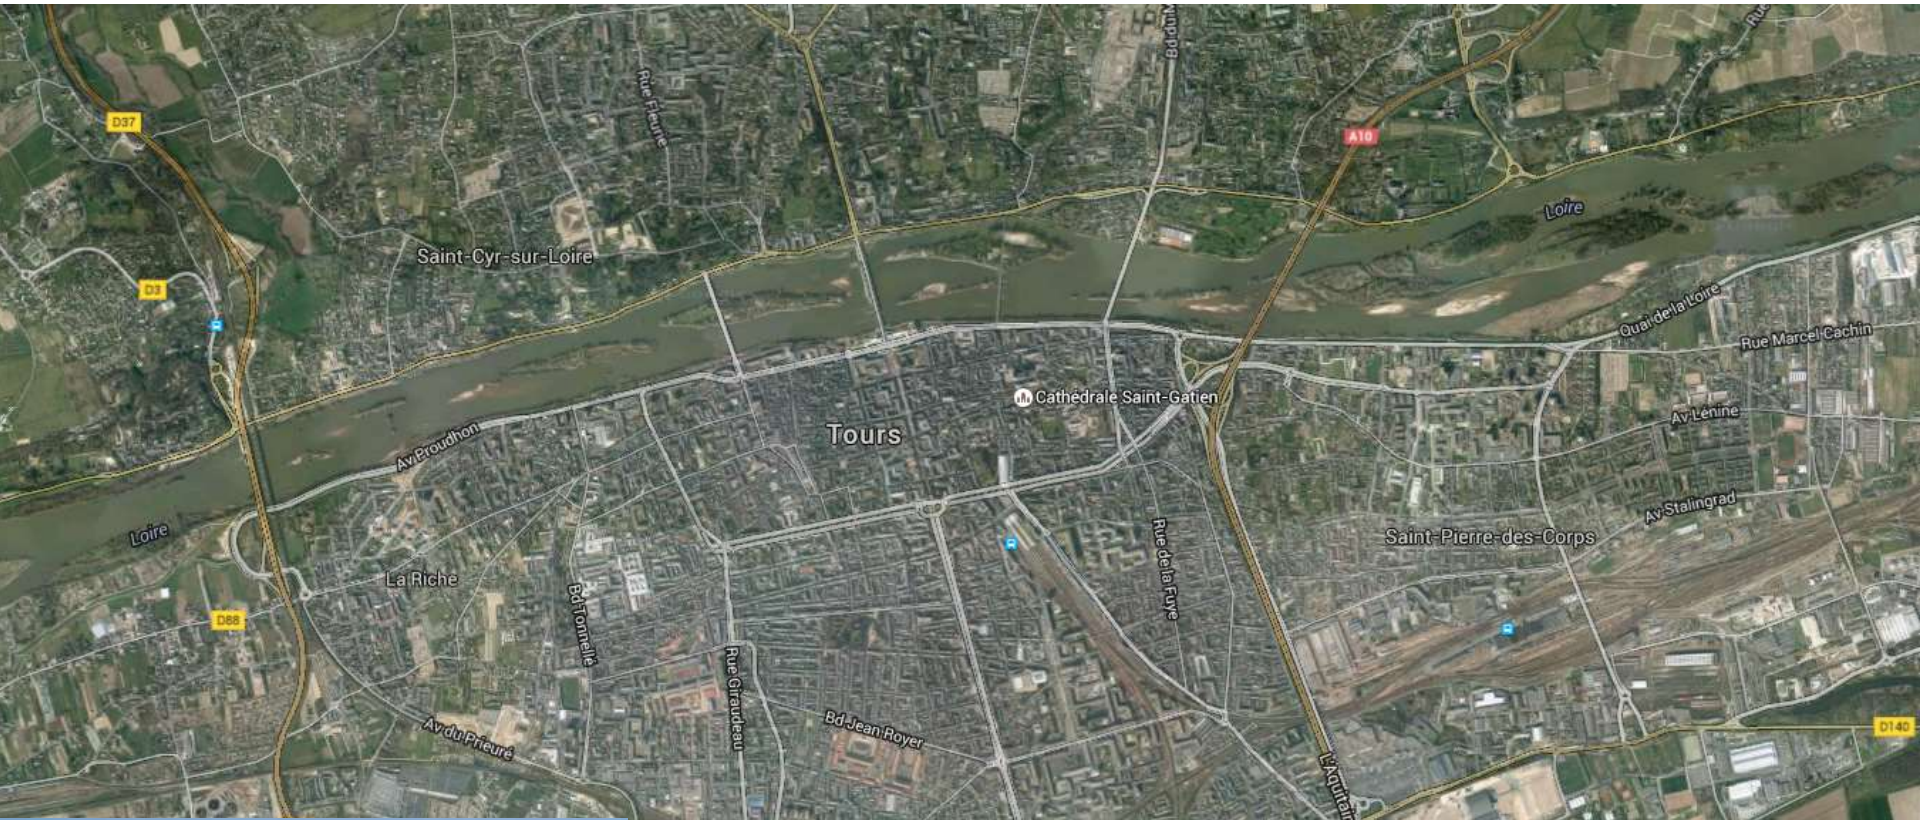

June 26- 30th 2016, in Tours, France

TOURS - Nouzilly

TOURS

Nouzilly

INRA - L'INSTITUT NATIONAL DE LA RECHERCHE AGRONOMIQUE
(Główny organizator Kongresu)

Preliminary programme ICAR 2016

Plenary sessions

- 1. Toward an integrative and predictive biology of reproduction** - Eric REITER
- 2. Metabolism and reproduction** - Matthew LUCY
- 3. Somatic environment and oocyte differentiation** - Svetlana UZBEKOVA
- 4. Epigenetic control in gametes and embryos** - Christopher O'NIELL
- 5. Developmental origin of adult animal health and animal production** - Pascale CHAVATTE PALMER

Symposia

(są organizowane w różnych miastach)

1. **Sheep and goat reproduction** - Joanna DE SOUZA-FABJAN
2. **Pig reproduction** - Takashi NAGAI
3. **Buffalo reproduction** - Pietro BARUSELLI
4. **Ovarian cortex and follicles culture** - Ricardo FIGUEIREDO
5. **Reproductive parameters of high yielding dairy cattle** - Roberto SARTORI
6. **Placental function** - Anne TARRADE
7. **QTL, SNP and reproductive function** - John WILLIAMS
8. **Neuroendocrine control of reproductive function** - Anne DUITTOZ
9. **Horse reproduction** - Barry BALL
10. **Reproductive management in beef cattle production systems** – Michael DISKIN
11. **Biomedical applications of transgenesis** - Eckhard WOLF
12. **Early maternal – embryo communication** - Pilar COY

Workshops

1. Cryobiology of gametes and embryos
2. Canine and feline reproduction
3. Transgenesis technologies and genome editing
4. Seasonality of reproduction and its control
5. Oocyte quality
6. MicroRNA in gametes and embryos
7. Camelids reproduction
8. Wild animal reproduction
9. Reproductive management in fish farming
10. Reproductive pathologies
11. Endocrine perturbators
12. Embryo technologies
13. Embryo implantation
14. Embryo metabolism
15. Estrus cycle control and insemination
16. Strategies for identification and conservation of genetic diversity
17. Evolution of omic tools and integration of omic data
18. Ultrasonography and other imaging methods

Congress Center Le Vinci

Le 26-28 Boulevard Heurteloup
37000 Tours
